

Security Drift Intelligence — Executive Audit Report

This report summarizes drift events, compliance exposure, and remediation priorities for security controls.

Summary

Events assessed	1004
Critical priorities	107
High priorities	111
Behavioral anomalies	80
Mean priority score	37.4

Highest-Risk Control Domains

Control Domain	Alert Count
Vulnerability	124
Logging	112
Cloud_Security	102
Data_Protection	101
DLP	101

Compliance Exposure

Control	Alerts
CIS AWS 3.1	1
CIS Controls 10.1	37
CIS Controls 3.11	61
CIS Controls 3.13	33

CIS Controls 4.1	29
CIS Controls 4.4	1
CIS Controls 6.3	1
CIS Controls 6.8	1
CIS Controls 8.2	43
GDPR Article 32	94
NIST AC-2	1
NIST AC-4	1
NIST AC-6	1
NIST AU-12	1
NIST AU-2	43
NIST AU-6	43
NIST CM-3	29
NIST IA-2	1
NIST SC-13	61
NIST SC-7	1
NIST SI-3	37
NIST SI-4	33
PCI DSS 1.3.1	1
PCI DSS 10.2	43
PCI DSS 12.3	33
PCI DSS 3.5	61
PCI DSS 5.2	37
PCI DSS 6.5.1	29
PCI DSS 7.2	1
PCI DSS 8.4.2	1

Management Assessment

Critical and high-priority drift should be reviewed against change approvals and restored to baseline unless an accepted, time-bound risk exception exists. Behavioral anomalies are investigative leads, not independent evidence of compromise.
